## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claims 1-8, drawn to a binding piece connecting body.

Group 2, claims 9-11, drawn to a binding piece.

Group 3, claims 12-18, drawn to an apparatus for closing a bag with a binding piece.

The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group 1 has the special technical feature of the binding piece connecting body, i.e., the special feature is in the connection between the individual binding pieces; group 2 has the special technical feature of a binding clip, i.e., the special feature is in the leg portions, the receiving member for the leg portions and the lubricant coated on the receiving member hole wall; group 3 has the special technical feature of a binding portion, a driver for cutting one of the binding pieces from the binding piece connecting body, and a feeding mechanism. The special technical feature of group 3 is not found in group 1 or 2 inventions and the special technical feature of group 1 is not found in the group 2 invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
